

**Senior Business Consultant  
Industrial Risk Management (m/f/d)**

risk on mind is an owner-managed consulting and IT solution company. With our 12-member team, we combine stability with the creativity and uniqueness of a start-up. We are already implementing digital projects while others are only talking about them.

We are looking for you to strengthen our team and are already looking forward to your application! In addition to the classic job interviews, we are happy to offer a virtual exchange in advance.

Please send your application to Ms. Marina Rubil!

**Your Tasks:**

- You would like to take on a position with the perspective of team leadership
- You advise our industrial clients both strategically at top management level and operationally in implementation
- Your core topics are qualitative and quantitative issues in risk management (especially operational risks as well as strategic and financial risks) taking into account relevant regulatory requirements
- You have experience in the industrial insurance market or would like to develop further in this context
- You have creative qualities in order to solve complex issues in an economically optimal way for our customers.
- You develop existing and new methods for risk quantification and measurement (including the use of mathematical-statistical methods) and regularly carry out validations of the risk models.
- You develop market-driven solutions for our customers in a challenging regulatory environment (insurance, banks, authorities...)

**Your Profile**

- Completed scientific/technical studies (computer science, mathematics, physics) or comparable qualification or quantitative finance/banking (business administration, economics, business informatics, industrial engineering, business mathematics)
- Several years of experience in consulting companies or in industrial companies
- Knowledge of risk management, risk analysis and risk control
- Desirable: insurance knowledge
- Customer and result-oriented approach, analytical skills, willingness to travel

**What you will get:**

We offer a gross annual salary for this full-time position of 38.5 hours/week starting at € 75,000. However, an overpayment in line with the market is a matter of course for us, so we will agree your actual salary individually in a discussion.
